

A photograph of a lighthouse on a rocky island in the ocean. The lighthouse is a tall, cylindrical tower with a spiral pattern of dark and light bands. It is situated on a small, rocky island in the middle of a vast, blue ocean. The sky is a clear, deep blue. The overall scene is serene and picturesque.

Welcome to

Hadron Collider Physics
Symposium 2006

Duke University

Scientific Program:

- Physics from Tevatron, RHIC, HERA, B factories
- LHC Preparations
- Theoretical Reviews
- Future Facilities
- Poster Session (Tuesday)

Social Program

- Wine and Cheese Reception – Bryan Center lobby
- Organ Recital - Duke Chapel
- Dinner Reception – Sarah Duke Gardens
- Public lecture by Larry Krauss – Nasher Museum
“Hiding in the Mirror: The Mysterious Allure of Extra Dimensions”
- Lecture by Dr. Robert Durden – Griffith Theater

Excursion and Banquet

- Excursion to historic town of Hillsborough
- Banquet at Carolina Inn, Chapel Hill
- Special programs for companions
- Golf at Treyburn – inquire at Millennium Hotel

Special Thanks to

- Our Sponsors:
 - Brookhaven, CERN, Duke University, Fermilab
 - DOE and NSF
- International Advisory Committee
